

Business Requirements – Customer Performance & Retention

Business problem: Management currently receives fragmented sales, operational and customer information and cannot quickly identify the drivers of revenue decline or cancellation.

Business objective: Provide an evidence-backed view of performance and identify actionable opportunities to reduce avoidable cancellations.

Functional Requirements

ID	Requirement	Priority
FR-01	The solution shall provide revenue, orders, customers and cancellation KPIs.	High
FR-02	The solution shall allow performance analysis by region, product, segment and channel.	High
FR-03	The solution shall identify significant changes and rank contributing dimensions.	High
FR-04	The solution shall support investigation of SLA performance and cancellations.	High
FR-05	The solution shall provide charts appropriate to the selected analysis.	Medium
FR-06	The solution shall allow users to export management-ready findings.	Medium

Non-Functional Requirements

- The interface should be understandable to a non-technical business user.
- Analysis should clearly distinguish evidence from hypotheses.
- Outputs should identify source evidence where possible.
- The system should handle incomplete data without silently inventing values.
- Generated reports should be readable and suitable for management review.
